

*"High quality
remanufacturing
the cost-effective way
to renew your fleet"*

Remanufactured Refuse Vehicles • Nationwide Back Up • Speedy Vehicle Provision

Reliable Vehicle Solutions

Why choose a remanufactured vehicle from RVS?

The life-time and quality of an RVS re-manufactured vehicle is on a par with that of a new vehicle, straight from the manufacturers factory, except you pay a fraction of the cost. On average, our customers pay 40% less for a refuse vehicle that is as reliable and built to the same specification.

Our engineers have over 30 years technical knowledge and expertise in refuse vehicles and our nationwide back-up service is dedicated to keeping our customer's vehicles at optimum performance.

Benefits:

-  **Vehicles built to specification**
-  **Significant cost savings**
-  **Reliable and robust 'as new' vehicles**
-  **Increase the life of existing fleets**
-  **Expert product support**
-  **Speedy vehicle provision**

Reputable Vehicle Solutions

Total Service Provision

RVS is here to support you through every stage of running your fleet, from selecting and supplying the correct vehicle for your requirements, assisting you during the procurement process and providing nationwide after-sales support.

Vehicle select and supply

Our experience in vehicle procurement and our extensive network of suppliers means that we can quickly source the vehicles you need, rebuild them to the highest standard and deliver to you on time.

Quality assured

Typically, refuse vehicle bodies wear out long before the chassis and cab. Our fully specified bodies are remanufactured to a quality assured standard, and ready to be mounted onto existing, new or used chassis.

One Stop for Spare Parts

RVS also stocks a comprehensive range of quality used spare parts for all makes and models of refuse vehicles, hook lifts and bin lifting equipment.

Recommended Vehicle Solutions

“ RVS response and service has been excellent. We needed a replacement vehicle that conformed to the latest Euro 4 emissions and were provided with a superb quality second hand vehicle, remanufactured to a high specification and fully compliant with regulations. The savings were significant too; the same vehicle, bought new, would have cost three times as much. ”

David Harrison
Galliard Construction Limited

“ We saved over 50% of the cost of buying a new vehicle when we bought a re-manufactured vehicle from RVS. We needed to replace one of our fleet urgently and they delivered us with a vehicle matching our exact requirements, including some significant modifications, in a very short time-scale. RVS service and engineering is second to none. ”

Paul Baker
Managing Director
Bakers Waste Services Limited

“ RVS have supplied the majority of vehicles for our new hire division and we are delighted with every aspect of their service. The vehicles were remanufactured to the highest standards, MOT'd and serviced before being delivered 'as new', all in under 6 weeks. Since then the after-sales and back up service has been terrific. ”

David Hamer
Group Managing Director
Pakawaste Limited
