

WEIGH & SEE: RECORDTM

High Accuracy Payload Control

the vehicle & bin weighing people

Weight Watching Pays

Whilst fitting your bin weighing system, we are happy to fit a 4 camera recording system **FREE OF CHARGE**

WEIGH & SEE: RECORDTM

ENVIROWEIGHTM is a stand alone system providing individual bin weights whilst displaying a running total of collected weights on a CCTV monitor, helping crews to prevent an overload condition.

When a new ENVIROWEIGHTM bin weighing system is fitted, we offer to fit our four camera video recording system for free. This device is also integrated into your weighing system, hence weigh & see: record.

Monitor showing four camera views

- Individual bin weights
- Four camera recording
- 10 day memory (can be extended)
- GPS tracking: day, date & time

M350S Indicator: The M350S indicator gives drivers precise on-the-spot weights. Compact and fitting neatly into radio slots, It looks equally as good dash mount. Features such as high security anti-tamper password operation and on-screen diagnostics are standard.

British made
OIML approved
Loaded with features
Nationwide on-site service
Weights shown on CCTV monitors

you weigh • you measure • you control
